# BAR PACKAGES

## INFO

Beverages play a defining role in wedding hospitality. A thoughtfully designed bar becomes more than a service point, it becomes a social anchor. It is where guests gather, interact, and experience the energy of the celebration. Even in venues without a built-in bar, a well-executed mobile bar transforms the atmosphere, adding theatre, interaction and a sense of occasion.

Our Full Wedding Bar Package is built from years of operational experience across destination and luxury weddings in Portugal. The objective is simple: complete clarity, seamless logistics and an unlimited beverage experience for guests.

We operate on a per person, per hour pricing model. This structure ensures transparency and cost efficiency, as guest numbers increase, the cost per person decreases due to the distribution of fixed operational costs. This allows planners and catering partners to forecast budgets accurately without hidden variables or consumption surprises.

Every wedding bar package includes:

- Professional, trained bar staff focused on service excellence
- Fully equipped portable bar with tools, utensils and professional glassware
- Complete beverage selection according to chosen tier
- Fruits, herbs, garnishes and ice
- Set-up and breakdown

Optional enhancements such as lounge furniture, cocktail tables, parasols or styling elements can be incorporated to align with the event design.

## CEREMONY - ½ HOUR

In the warm Algarve climate, staying hydrated during ceremonies is crucial. To ensure your guests remain comfortable throughout the event, we offer a thoughtful solution.

# RECEPTION COCKTAIL

## POST CEREMONY - 2 HOURS

The reception marks a moment for celebratory toasts with effervescent bubbles. Following the ceremony, we suggest treating your guests to a glass of champagne, sparkling wine, or perhaps a couple of cocktails to kick off the festivities. For this stage, we recommend lighter options with low alcohol by volume (ABV%), such as spritzers, wines, beers, and juices.

To enhance service and ensure every guest can easily access a drink, consider having the beverages served on trays. This not only adds a touch of elegance but also guarantees that all attendees can enjoy a drink promptly and seamlessly.

### Champagne Tower

Champagne towers add an incredible touch of luxury to any celebration. The sheer size of the tower creates a dazzling and impressive spectacle, making it a truly unforgettable sight. The visual impact of the gracefully arranged glasses is stunning, and some couples even opt for a Champagne tower pour as a unique alternative to the traditional cake-cutting ceremony.

Due to the necessity of a stable structure, the tower requires a precise number of glasses. However, for flexibility, we can add glasses on the side to accommodate the exact number of guests.

#### Choose from the following tower size options:

**3 levels - 14 Glasses**

**4 levels - 30 Glasses**

**5 levels - 55 Glasses**

**6 levels - 91 Glasses**

**7 levels - 140 Glasses**

**8 levels - 204 Glasses**

Each level adds its own touch of elegance, providing a customisable and visually captivating element to elevate your celebration.
